**Power - when you need it - where you need it**

# Digital Inverter Generators

Westinghouse digital inverter generators offer you the ultimate in portable power convenience. Lightweight, fuel efficient and quiet, their mains-quality electrical output can safely power all your sensitive electronic equipment. They're an essential part of your gear for caravanning and camping and also great for home as a backup power supply.

# Auto Start Series

Westinghouse Auto Start Series generators have been designed specifically for the Australian market to complement off-grid solar power systems and other applications that need a hardwired remote-control generator. In addition to the features of a standard generator, each model has a unique 2-wire auto remote start, run and stop control system.
